The TXM Technology Group prides itself on the design and delivery of bespoke resource solutions into the core technology, digital, information security and cyber technology environments.

Across the group companies, there is a common focus of driving positive outcomes for all clients and candidates alike within a fast paced, dynamic and ever changing marketplace.

Fran established TXM Technology in 2013 with a collective goal - to invest, support and drive positive outcomes for all.

Over the last four years, Fran has led a team to extraordinary growth, developing the business from a single office with two consultants, to today, boasting a total of four separate companies working from three offices locations and a team of over twenty employee's.

Strategically located offices in Manchester servicing the North, and in Fareham servicing the South, provides dedicated resourcing teams maintaining leading digital, core and cyber-focused technology clients.

2016 also saw the addition of a stand-alone resourcing entity located in Europe, as well as TXM Cyber Solutions, a new business providing SME's with the protection of computer and online systems.

With his team of dedicated professionals, Fran has delivered his goal of growing a strong business that supports clients in a focused, collaborative process. Fewer but more engaged customers, working with highly motivated consultants providing a best in class solution.

By delivering for, and retaining 50 leading clients and successfully partnering hundreds of projects, TXM Technology Group has firmly established its solution of offering a mix of resource project solutions, standard recruitment projects and now the delivery of bespoke technology managed services within the Cyber Technology space.

In 2017 the group will continue to follow its collective approach to new and exciting markets with the aim of expanding into the USA and Emirate territories and growing its client community to 70.

A world of new opportunity waits. Moving forward together with our customers ensuring that service, solution and outcome remain central to going The Xtra Mile.
